Muhammad Fikri Ihsan, Fullstack Developer

Medan, Indonesia, 089524171641,
mfikriiihsan03@gmail.com

PROFILE

I am a quick learner when it comes to new technologies, languages, and methodologies. I work diligently to implement designs into web/UI and backend development with meticulous attention to detail. I am proficient in designing the application lifecycle from concept to implementation. Additionally, I possess an exceptional ability to conduct concise analyses of existing designs to identify areas for improvement in functionality and usability, and to redesign accordingly.
